

Lasse Holmström October 18, 2022

CURRICULUM VITAE AND PUBLICATIONS

Name and current address

Lasse Holmström
University of Oulu
Research Unit of Mathematical Sciences
P.O.Box 3000
90014 University of Oulu
Finland

Homepage: <http://cc.oulu.fi/~llh/>

Date and place of birth, marital status

June 27, 1951, Helsinki, Finland
Married, three children

Education

University of Helsinki (1971-1978):

B.S. (Mathematics), 1974
M.S. (Mathematics), 1975
Licentiate in Philosophy (Mathematics), 1977

Clarkson College of Technology, Potsdam, New York, USA (1978 - 1979):

Ph.D. (Mathematics), 1980
Doctoral Thesis: A Study on the Structure of Nuclear Köthe Spaces
Thesis advisor: Professor Ed Dubinsky

Positions held

In Finland

University of Oulu, Department of Mathematical Sciences:

Professor (2003 - 2017)
Department Chair (2006 - 2013, 2015)
Chair of the Research Unit of Applied Mathematics and Statistics
(2016)

Rolf Nevanlinna Institute (University of Helsinki):

Director (1999 - 2000, 2002 - 2003)
Research Division Head (1995 - 2003)
Associate Professor (1994 - 1995)
Senior Fellow (1992 - 1993)
Acting Director (1992)
Research Fellow (1988 - 1989)

Academy of Finland (Research Council for Natural Sciences and Engineering):
Senior Scientist (2008)

Academy of Finland (Research Council for Technology): Senior Fellow (1990
- 1992)

Helsinki University of Technology, Laboratory of Information Processing Sci-
ence: Research Fellow (1984 - 1988)

University of Helsinki, Department of Mathematics:

Assistant (1977 - 1978, 1979 - 1981, 1983 - 1984)
Lecturer (Fall 1980)
Docent of Mathematics (1983 -)

The Institute of Marine Research, Finland: Research Assistant (summers 1974
and 1975)

Abroad

The National Center for Atmospheric Research (NCAR), Boulder, Colorado,
USA, Institute for Mathematics Applied to Geosciences (IMAGE): Visiting Se-
nior Scientist (2008)

George Mason University, Fairfax, Virginia, USA, Center for Computational
Statistics: Visiting Research Professor, (1997 - 1998)

Rice University, Houston, Texas, USA, Department of Statistics: Visiting Pro-
fessor (1993)

Vassar College, Poughkeepsie, New York, USA, Department of Mathematics:
Visiting Assistant Professor (1982 - 1983)

Clarkson College of Technology, Potsdam, New York, USA, Department of Mathematics and Computer Science: Visiting Assistant Professor (1981 - 1982)

Leader of research projects

Learning systems and their applications (funded by the Academy of Finland, Research Council for Technology, 1990 - 1995).

Self-Organisation and Analogical Modeling using Subsymbolic Computing (funded by the Technology Development Centre, 1989 - 1990, 1991 - 1993).

New Methods in the Analysis of Multidimensional Data (funded by University of Helsinki, 1994 - 1996).

Adaptive Image Analysis, the RNI group (funded by the Technology Development Centre, 1994 - 1995).

Intelligent Processing and Analysis of Images and Speech (funded by the Academy of Finland, Research Council for Science and Technology, 1996 - 1999).

Flexible Function Estimation and Neural Networks (funded by the Academy of Finland, Research Council for Science and Technology, 1999 - 2001).

New Modeling and Data Analysis Methods for Satellite Based Forest Inventory (a research consortium with Rolf Nevanlinna Institute, Finnish Forest Research Institute, and the Laboratory of Space Technology of the Helsinki University of Technology, funded by the Academy of Finland ANTARES Research Programme, 2001 - 2004).

Measuring the Environment: Analyzing Data from Fossils to Forests (funded by the Academy of Finland, Research Council for Science and Technology, 2003 - 2006).

Climate variability in NW Europe during the last 4000 years and its ecological consequences (CLIM-ECO) - Mathematical theory and predictive models for temporal dynamics (funded by the Academy of Finland, Research Council for Biosciences and Environment, 2008 - 2011).

Scale space methods for the analysis of environmental change - past present and future (funded by the Academy of Finland, Research Council for Science and Technology, 2012 - 2015)

LST - a novel approach for analysis and visualization of complex data (funded by Tekes, Finnish Funding Agency for Technology and Innovation, 2013 - 2015)

Ecological history and long-term dynamics of the boreal forest ecosystem (EBOR):
Statistical modeling and data analysis (funded by the Academy of Finland, Research Council for Biosciences and Environment, 2014 - 2018).

Doctoral and licentiate's theses directed

Doctor:

Ari Hämäläinen, University of Jyväskylä, 1995
Petri Koistinen, Helsinki University of Technology, 1996
Jussi Klemelä, University of Helsinki, 1997
Fabian Hoti, University of Helsinki, 2004
Panu Erästö, University of Helsinki, 2006
Leena Pasanen, University of Oulu, 2012
Liisa Ilvonen, University of Oulu, 2016
Ilkka Launonen, University of Oulu, 2016
Ville Vuollo, University of Oulu, 2018

Licentiate:

Timo Laakko, Helsinki University of Technology, 1987
Ari Hämäläinen, University of Jyväskylä, 1992
Jussi Klemelä, University of Helsinki, 1992
Fabian Hoti, University of Helsinki, 2001
Panu Erästö, University of Helsinki, 2001
Heikki Kokkonen, University of Oulu, 2007
Juna-Matti Tirilä, University of Oulu 2010

Editorial Work

Comissioning Editor for WIREs Computational Statistics, 2016 -

Associate Editor of Scandinavian Journal of Statistics, 2004 - 2010

Reviewer for the NSA Mathematical Sciences Grant Program (USA), the Swedish Research Council and the Swedish Foundation for Strategic Research

Referee for several leading international journals in my field, such as Journal of the American Statistical Society, Technometrics, Computational Statistics and Data Analysis, Sankhya, IEEE Transactions on Signal Processing, Pattern Recognition Letters, IEEE Transactions on Neural Networks, Statistical Analysis and Data Mining

Other academic activities

Doctoral thesis defense opponent:

Jukka Heikkonen, Lappeenranta University of Technology, 1994
Kristian Hindberg, University of Tromsø, 2012
Marc Geilhufe, University of Tromsø, 2013

Doctoral thesis pre-examiner:

Jari Kangas, Helsinki University of Technology, 1994
Samuel Kaski, Helsinki University of Technology, 1996
Ilmari Juutilainen, University of Oulu, 2006
Miika Toivanen, Aalto University, 2010
Kristian Hindberg, University of Tromsø, 2012
Marc Geilhufe, University of Tromsø, 2013
Jukka Kohonen, University of Helsinki, 2014
Alberto Pessia, University of Helsinki, 2017

Licentiate's thesis referee:

Jukka Ranta, University of Helsinki, 1996
Tommi Vuorenmaa, University of Helsinki, 2004
Jukka Kempainen, University of Oulu, 2004

Reviewer for a professorship:

Jouko Lampinen, Helsinki University of Technology, 2000
Jouko Lampinen, Helsinki University of Technology, 2005

Docentship referee:

Seppo Pohjolainen, University of Jyväskylä, 1996
Jari Kangas, Helsinki University of Technology, 1996
Jari Kangas, Tampere University of Technology, 1997
Aki Vehtari, University of Helsinki, 2006
Tapani Raiko, Aalto University, 2012

Graduate School Board Member

The Finnish Graduate School in Stochastics, 1998 - 2006
The Finnish Graduate School in Stochastics and Statistics, 2006 - 2015
School of Statistical Information, Inference, and Data Analysis, 2002 - 2006
Graduate School of Remote Sensing, 2002 - 2006
Graduate School in Computational Methods of Information Technology, 2001 - 2009

Other Academic Positions of Trust

Member of the management group of the Finnish International Visitor Program in Mathematics, 2001 - 2008

Trustee of the Research Foundation of Rolf Nevanlinna Institute, 1999 - 2014

Member of the Board of Rolf Nevanlinna Institute, 1993 - 2003

Member of the Council of the Faculty of Science, University of Oulu, 2005

Member of the Rolf Nevanlinna Institute Doctoral Thesis Prize Committee 2001 and 2009

Congress Committees

1989 Nordic Symposium on Neural Computing, Organizing Committee

1991 International Conference on Artificial Neural Networks, Program Committee

1996 International Conference on Artificial Neural Networks, Program Committee

2002 The 13th European Conference on Machine Learning (ECML'02), Program Committee

2008 The European Workshop on Intelligent Computational Methods and Applied Mathematics (ICMAM 2008), Program Committee

Professional societies

Member of:

American Statistical Association
Finnish Mathematical Society
Institute of Mathematical Statistics
Pattern Recognition Society of Finland
