

UNIVERSITY of OULU
OULUN YLIOPISTO

Postdoctoral position in condensed-matter theory in Oulu, Finland

A postdoctoral position is open in the group of theoretical physics in Oulu. The main research topics in the group led by Erkki Thuneberg (<http://cc.oulu.fi/~ethunebe/>) are

- 1) mesoscopic physics, in particular theory of Josephson-junction qubits, and
- 2) Fermi-liquid theory of both normal and superfluid phases and its application to liquid ^3He .

Applications should include a CV, list of publications, a brief summary of research interests, and email addresses of three persons who could provide letters of recommendation. The position is initially for one year and can be extended for a second year. The appointment can start in January 2012 or later. Applications received before December 31, 2011 will be given full consideration. Inquiries and applications should be sent by email to Erkki Thuneberg (email firstname.lastname@oulu.fi).
