

## Research Visitor Grants in Space Physics

Research visitor grants are available at the Space Physics and Astronomy research unit of the University of Oulu, Finland, within the framework of the ESPERA (Extreme Solar Particle Events: Risk Assessment) of the Academy of Finland. The funding period covers 2019 – 2023. ESPERA project is devoted to a focused study of extreme solar events, their occurrence, manifestation and impacts on the near-Earth environment. It involves data analysis, theoretical modelling and measurements, in a multi-disciplinary research of Solar, Heliospheric, Magnetospheric, Atmospheric Physics.

We invite applications from experts with verified competence in any of the above-mentioned fields of Space Physics research, for single or multiple visits lasting up to 6 months at a time.

The application should include:

- A brief description (max 2 pages) of intended research and its relation to the ESPERA project
- Curriculum vitae (max 4 pages)
- A list of publications

The conditions for the grant are described [here](#)

Applications and possible requests of additional information should be sent by e-mail to Prof. Ilya Usoskin <[ilya.usoskin@oulu.fi](mailto:ilya.usoskin@oulu.fi)>

[Grant applications are considered continuously.](#)
